

SALTER LABS®

Salter-Style® Adult Cannulas

Salter's unique, patented design results in greater patient comfort

Features

- Anatomically curved to fit upper lip
- Curved, tapered nasal prongs
- Over the ear style
- Three-channel safety tubing
- Soft, lightweight, clear material

Benefits

- Eliminates flap or ridge which can cause irritation
- Improved anatomical fit
- Secure positioning
- Uninterrupted flow of oxygen
- Better comfort for long-term use. Does not interfere with patient observation

Wrap around, "Anti-Roll" Feature

Works with the anatomy rather than against it...A Salter Innovation.

Salter-Style® Adult Cannula 1600

Clear, lightweight cannula with unique one piece anatomical design. Eliminates the need for flap, which can cause irritation. The result is maximum patient comfort. Over-the-ear style ensures secure positioning, allowing complete freedom of movement. Provided with three-channel safety tubing or smooth bore tubing in lengths from 4 to 100 feet. Special lengths available.

One piece anatomical design

Three-channel safety tubing

Adult Conventional Cannula 1056

Conventional cannula with non-flared tips. Made of soft disposable material. Adjustable tubing fits comfortably over the ears to hold the cannula firmly in place. Provided with standard smooth bore tubing in 7' or 16' lengths. Special lengths available. See price list for details.

Non-flared tips

Smooth bore or three-channel safety tubing
